

DRYWALL & BOARD LIFTER

BOARD LIFTER

- wheel mounted board lifter
- metal frame that easily dismantles
- twin cable lift for safety
- position drywall boards & panels
- insulation and sheet materials
- fix soffits & ceiling panels
- maximum 75kg lift
- up to 3.5 metres board lift height
- tilting head adjustable to 45°

The drywall board lifter allows one man to position and fix ceiling boards and panels

The board can be raised up to 3.5 metres, swivelled through 360° and tilted to 45°

The metal frame dismantles into two main components and the wheels fold flat for transport

The weight of the equipment is 38kg
