

BUCKET TROWELS

- range of sizes & shapes
- square & round end bucket trowels
- for scooping up material
- getting the mix from the bucket
- applying & dabbing on walls
- soft composite rubber handle

The trowels have long straight sides to help load the mix onto the trowel and clean the bucket of residue

The heavy duty bucket trowels are produced from heavy gauge stainless steel, are fully welded and ground finished like a brick trowel for rigidity and durability
