

# PETROL COMPRESSORS

## PETROL SITE COMPRESSORS

- air compressors with petrol engine
- for spray painting & decorating
- air chisels & hammers
- needle guns & scrapers
- fixing tools & staple guns
- Honda petrol engines
- compressors produced in the UK

The AC petrol compressors are British made with Honda engines, built to an industrial spec with heavy duty and slow running belt driven air pumps

The compressors will run all day on site and power a wide range of air tools, spray equipment, surface prep tools, mixers and drills

The compressors are supplied with solid rubber wheels as standard

The AC30P is a site compressor that will deliver up to 30cfm and will run the ACF20/3 render spray gun and also a range of spray pumps and air tools

## APPLICATIONS

- for powering spray guns & pumps
- surface prep tools & rotary scabblers
- needle guns & chipping hammers
- air powered mixers
- sanders & polishers
- full protective frame available

## ELECTRIC SITE COMPRESSORS

- air compressors for site use
- slow running motors & pumps for long life
- 110v or 230v motors
- 24 ltr or 60 ltr air tanks
- for spray painting & decorating trades

The REFINA range of portable compressors are built to an industrial spec with heavy duty motors and slow running air pumps

The compact air compressors have slow running motors and pumps with a compact or 60 ltr design. The belt drive compressors are produced in the UK

The 110v units have soft start motors and are designed so that start up current is minimised. They are fitted with a 32amp plug and need to run off a 5kva transformer

## APPLICATIONS

- for paint spray equipment
- air chisels & hammers
- needle guns & scrapers
- fixing tools & staple guns
- sanders & surface prep tools
- full protective frame available
