

XD14/1 & XD30/3 DUSTEX VACS

- designed for dust control & extraction
- for use with surface prep power tools
- floor grinding machines & sanders
- diamond cutters & core drills
- supplied with M class filter (1.0 micron)
- H class Hepa filter (0.3 micron) available
- heavy duty anti-static plastic tank

The single motor 1400 watt XD14/1 is fitted with filter warning light, manual filter vibrator/cleaner and M class filter

The XD30/3 is a triple motor dust extraction vac with three 1000 watt motors, each motor is fitted with its own independent M class filter

The 3-flow filter system works automatically with two of the filters working on suction with the third motor self cleaning every 30 seconds in rotation

Both dustex vacs use high airflow vacuum motors

The vacs use M class filters to remove particles down to 1.0 micron. The vacs can be fitted with H class Hepa filters that filter down to 0.3 microns

A carbon mesh pre-filter is also available which is effective for gypsum and concrete dust

For large volumes of dust, the cyclone C95T pre-separator will remove 95% of the dust and particles before the residues reach the vacuum. This extends the life of the filters and vacuum motors

The HSE notes that scabbling or cutting concrete or stone can also produce high levels of dust that may contain silica. Mortar can also contain respirable crystalline silica (RCS) which is hazardous to health. In most cases it is feasible to control RCS by dust suppression techniques, capturing or controlling the dust at source is better than attempting to control exposure by ventilation

Most dusts will cause some irritation or harm, and it is often the finer dusts that get through face masks that are the most hazardous

APPLICATIONS

- effective collection of dust & residues
- for concrete & stone dust
- silica particles
- plaster dust & drywall joints
- paint & coating dust
- wood & board sanders

DUSTEX VACS	XD14/1	XD30/3
Power	1400w	3000w
Machine weight	17kg	26kg
Size WxLxH	39x39x90cm	53x54x145cm
Hose diameter	38cm	38cm
Hose length	3m	3m
Vacuum	255m ³ /hr	476m ³ /hr
Noise level	71dBA	71dBA
Voltage	110v or 230v	

DUSTEX VACS

DUSTEX AUTOVAC, for plaster, concrete, stone, paint & wood dust

Stock no	Description	Power	Weight	Airflow	£ ex VAT
360053	XD14/1 autovac	1400w	17kg	255m ³ /hr	599.00

DUSTEX AUTOVAC, for plaster, concrete, stone, paint & wood dust

Stock no	Description	Power	Weight	Airflow	£ ex VAT
360045	XD30/3 autovac	3000w	26kg	476m ³ /hr	989.00

REPLACEMENT FILTERS, long life, for concrete & paint dust

Stock no	Description	£ ex VAT
367120	3 flow cartridge M filter	29.00
367121	3 flow cartridge Hepa H filter	39.00

PRE-SEPARATOR DRUM, with trolley, removes 95% of dust before vac & improves filter efficiency

Stock no	Description	Weight	£ ex VAT
359008	PC95T pre-separator cyclone drum	10kg	175.00

DUST EXTRACTION KIT, for use with dustex vacs

Stock no	Description	£ ex VAT
346068K	vac brush & tool kit	35.00

XD14/1 autovac
