

RENDER & MORTAR MIXERS

RMX140 & RMX225 PAN MIXERS

- heavy duty rotary paddle mixers
- three adjustable mixer blades
- uniform & consistent mixing
- bottom outlet for discharge into barrow
- for dry & bulk mixes
- easy to clean, low maintenance
- produced by REFINA in the UK

The RMX140 & RMX225 rotary paddle forced action mixers have been redesigned with larger capacity drums

They will mix mortars and external colour through renders including monocouche and K-Rend

They have three adjustable paddles and are driven by a powerful electric motor and sealed gearbox. These mixers are powerful enough to mix the heaviest render, mortar and screed

The RMX140 can mix materials with aggregate up to 8mm. For aggregate up to 10mm the RMX225 is more suitable

The RMX140 is supplied with a 1.5kw 110v motor; a 230v motor is available for domestic building work. It will mix 5 bags of monocouche render or a 4 to 1 sand and cement mix

The RMX225 will handle a 6 to 1 mix

The RMX mixers will run off 110v construction site electrics using a 5kva transformer or 6kva generator. The 110v mixers are not designed to run off a domestic 13amp supply

For refractory cements use a 415v three phase machine

APPLICATIONS

- sand & cement renders
- colour through & polymer renders
- polymer screed & mortars
- repair mortars & cements
- Monocouche & K-Rend
- refractory cements

PAN MIXER	RMX140
Power	1.5kw
Machine weight	95kg
Size WxL	90x95cm
Height	110cm
Paddles	3 blade set up
Drum size	70cm
Output	800kg/hr
Noise level	71dBA
Voltage	110v or 230v

PAN MIXER	RMX225
Power	2.2kw
Machine weight	105kg
Size WxL	100x95cm
Height	110cm
Paddles	3 blade set up
Drum size	80cm
Output	1000kg/hr
Noise level	71dBA
Voltage	110v or 230v
