

ROTAMIXER FORCED ACTION MIXER

RM32 ROTAMIXER

- new handle shape & design
- compact forced action mixers
- L shape stainless steel paddle for full sweep mix action
- adjustable paddle for heavy & liquid materials
- clean sweep of both side & bottom of drum
- easy clean & low maintenance
- produced in the UK

The RM32 Drum Mixer is solidly built with a compact all steel frame; it is easy to clean and gives an excellent mix. The rotating drum produces a centrifugal action and the stainless steel paddle mixes from the outside to the centre of the drum. The angle of the paddle is adjustable for liquid and heavier materials.

The technically designed stainless steel L shaped paddle generates a radial and axial mix action that will mix right up to the drum sides and sweep clean the base.

The mixer has a 1.1kw heavy duty motor and gearbox which is more powerful than similar machines.

The RM32 ROTAMIXER uses a 32 ltr steel drum and is for one bag mixes of mortar and epoxy, floor paints and coatings.

APPLICATIONS

- mixing cement repair mortars
- epoxy mortars
- latex floor topping
- floor coatings & self levellers
- heavy bodied paints & coatings
- mix quantity 1 bag

RM32 rotary drum mixer

ROTAMIXER	RM32
Power	1.1kw
Machine weight	56kg
Size WxL	55x170cm
Height	87cm
Paddle	L shape
Capacity	15-30kg
Output	600kg/hr
Noise level	65dBA
Voltage	110v or 230v

ROTAMIXER FORCED ACTION MIXERS

RM65 & RM90 ROTAMIXERS

- robust forced action paddle mixers
- stainless steel adjustable paddles
- twin paddles for thorough mix action
- radial & axial mix, turns & lifts material
- easy clean for epoxies & cements
- produced in the UK

The RM65 & RM90 mixers are robust forced action mixers designed to mix all those materials that can't be successfully mixed in a conventional free-fall cement mixer

The rotating drum produces a centrifugal mix and the technically designed paddles generate a radial and axial action. The machines are easy to clean and maintain, and replacement mixing tubs are economically priced. The machine includes a redesigned stainless steel L shaped side paddle and a rotary claw paddle which will mix right up to the tub sides and base

The RM65 is a compact forced action mixer for up to two bags of repair or fibre filled mortar, grout, epoxy, screed, flooring latex and coatings, cements, tile adhesives and special plasters. The RM90 can mix up to three bags. These mixers are produced with a 110v high torque motor and sealed gear box; 230v and 415v motors are also available for both models

APPLICATIONS

- concrete repair mortars
- epoxy mortars
- resin bound aggregates
- lime mortars
- latex floor screed & cementitious toppings
- floor coatings & self levellers
- heavy bodied paints & coatings
