

CORNER & ANGLE TROWELS

CORNER & ANGLE TROWELS

- light gauge stainless steel, rust free
- internal & external angle trowels
- range of sizes
- soft composite rubber handle
- adjustable trowel for splayed internal angles
- square & angle tool for reveals

The adjustable angle trowel will be useful in every plasterers tool bag. It is for matching and finishing splayed angles

The square and angle tool is produced from stainless steel and is for setting accurate corners around windows, frames and reveals

The corner square is for producing clean internal 90° angles
